TO OUR PATRONS.

(Introduction to California "Trees and Flowers.")

OUR specialty in dealing in native tree and flower seeds and plants, many imperfectly or wholly unknown to the horticultural public, leads us to offer the following descriptive notes of the more desirable West American trees and flowers, which we hope may lead to their extending their circle of admirers. Our facilities for obtaining whatever may be desired are excellent, and our reputation as botanists insures the greatest accuracy.

No guarantee, however, expressed or implied, accompanies goods sent out. Orders received too late for the season's supply will be filled the succeeding season, unless we are otherwise advised.

ORNAMENTAL TREES AND SHRUBS—native and foreign—such as Grevilleas, Cypress, Palms, etc., in choice variety.

CITRUS AND DECIDUOUS FRUITS, especially the Strawberry Guava, Figs, Oranges, etc., in all leading varieties can be supplied at ruling prices. Grapes and small fruits also furnished. Price list on application.

We offer a great variety of seeds of desirable California wild flowers—both annuals and perennials. Advance orders from the trade for any quantities desired are solicited.

Palm seeds, other ornamental tree and shrub seeds, etc., at lowest quotations. Contracts for growing seeds solicited. We also carry a great variety of choice flower seeds—not native—especially recommended for cultivation in California.

The rose and chrysanthemum receive special attention, and permanent shrubs, vines and trees in choice varieties are always on hand. Correspondence solicited.

California Flowers.

Many varieties mentioned in our descriptive list of "California Trees and Flowers," we are at times unable to supply, but on the other hand, we are continually introducing new and desirable trees and flowers to our novelty-loving friends. Descriptions of these, and supplementary notes on "California Trees and Flowers" may be found in this journal.

We collect the roots of these in the summer, when nearly all are perfectly dry, and they are then sent by mail or express in that condition. They require careful treatment, but are well worth the care. Prices are per 100 roots, carefully packed. It is impossible for us to secure all the following species every year; those marked with an asterisk (*), however, are especially recommended and can generally be supplied with promptness.
