NEWS OF THE CHURCHES TALL TOWER FOR ST. JOSEPH'S. CATEOLIC MISSIONABLES COMING FROM

ST. LOUIS.

Plans Drawn for Central Methodist Fai ago-Rev. Mr. Binson Comisg-Week of Frayer Being Observed -Other Church News.

St. Joseph's Catholic church is soon to be adorned by a handsome and imposing tower which will reach into the air to a height of eighty feet from the ground. Provision was made for the tower when the church was built four years ago, but owing to the lack of funds the work was not completed. The tower at that time was built to a height of twenty-four feet, nearly on a level with the roof of the church. L. A. Curtis, the architect who drew the plans for the church structure, has completed the drawings for the tower, having made some changes from the original plans, and the work will be-gin in a day or two, the motar having

gin in a day or two, the motar having already been prepared. The tower is to be of brick and will carry out the features of the remainder of the building. It will be fourteen feet square for its entire height, and on top there will be a tile foof on the Oid. Mission plan. Surmounting this will be a large cross. The addition will consist of three stories with leaded windows in each story. The walls of the first two stories will be two feet thick, and the walls two feet thick, and the walls the last section seventeen be two feet. thick, and the walls of the last section, seventeen inches. There will be red stone trim-mings on the outside. The tower will cost about \$1,500. When the work is completed, z large bell will be put in to call the members of the church to working.

) worship. Bev. Father Ubach has been advised that three Catholic missionaries of the that three Catholic missionaries of the Redempterist order will come to this city from St. Louis in March and hold a mission of about ten days, beginning on the 25th of that month. The mis-sionaries are eminent priests, and in office correspond to the evangelists in the Protestant churches.

The plans for the parsonage of the Central Methodist church have been drawn and they show that the future home of Rev. Mr. Barton will be a handsome, cosy, home-like building. It will be a story and a haif high and contain eight large rooms, beside a number of smaller ones. The present personage will be used in the new building but with the meny addition parsonage will be used in the new bullding, but with the many additions to it no one will recognize the old house. The parsonage will cost about \$1,600 complete. The greater part of this sum was given to the church by Miss Johanna Reimers.

Jack Cooke, the 13-year-old boy preacher, who will speak in this city for ten days beginning with the 21st of this month, will make several addresses this month, will make several addresses in the afternoon in order to give the country people a chance to hear him. It is also possible that he will speak on the plaze one day. After his addresses he invites the people to ask questions, and he answers them to the best of his ability. While here he will speak in the First Methodist church in the First Methodist church.

The monthly meeting of the Pastors' union was held on Monday. Rev. Mr. Earl, who was to read a paper, was not present, and the time was taken up in considering the results of the re-ligious census. Efficient plans were laid for future work. Rev. C. L. Mc-Causland will prepare an essay for the next meeting on a subject of his own choosing.

Rev. Mr. Hinson of the First Baptist. church of Vancouver. B. C., will ar-rive in this city today, a telegram to that effect having been received from him last night. He will spend several weeks in San Diego and will occupy the pulpit of the First Baptist church, probably holding special meetings dur-ing the week in addition to the Sanday services. Rev. Mr. Hinson was here services. Rev. Mr. Hinson was here early last year and made such a favtended to him to become pastor of the church. He also received a call from rer church, ar accepted

It is intended that All Saints' chapel shall be enlarged shortly. The work demands more room than is afforded by the present building. The congrega-tion of All Saints has done remark-ably well in the past year in making payments on the lot purchased, and in paying for the removal and improve-ment of the chapel.

ment of the chapel. The Decem club and its friends, who are to present Miss Luce's new play next month, desire to give the proceeds to charity. They have offered to give these for distribution to the Relief Chapter of St Paul's guild. This chap-ter does a very large amount of work in giving aid to persons or families in in giving aid to persons or families in distress, irrespective of belief or re-ligous connections. Besides aiding in caring for the sick, paying rent, mak-ing small loans, supplying groceries, it disposes of many hundreds of gar-ments during the year. The chapter expends its money after careful inves-tigation and on advice of the rector. Services are held every sunday at La

tigation and on advice of the rector. Services are held every Sunday at La. Jolla by Daniel Cleveland, lay rector from St. Paul's church. Fred Rey-nolds goes out to play the organ. A meeting of the Woman's auxili-ary will be held on Tuesday next at the guild rooms, when a paper will be read by Mrs. P. M. Johnson on "Mis-sion Work in Alaska." . . .

The First Methodist, First Lutheran First Presbyterian and First Baptist churches are observing the week of prayer. All report a lively interest in the meetings and a good attendance.

MINING COMMITTEE MET.

It Will Make an Effort to Have the Mineral Exhibit Put in Fine Shape. The first meeting of the 1900 committee on mines of the chamber of commerce was held yesterday afterthere being present George M. Hawley, chairman; D. C. Collier, Jr., L. a.A. Wright and Capt. Farnsworth. There was nothing before the com-

mittee save the consideration of the exhibit, which is being installed in the chamber of commerce rooms. It was decided to make the exhibit as at tractive as possible, so that the visitors to the rooms will be able to see at a glance that the mineral portion of the exhibit is one of the best in the cham

ber. With this in view it was decided to ask all the miners and mine owners of the city and county to send in sample of the ore found, together with samples of the ore found, together with samples of the foot and hanging walls and of the country rock. These will be arranged in such a way as to form not only an attractive but an instructive exhibit to all who wish to study the mineral formation of the county. It was further decided to ask for blue-print maps and photographs of the various mines. The committee may make a report of its Investigations and actions to the meeting of the di-

and actions to the meeting of the directors today.

LOCAL BREVITIES.

The law and motion and the probate calendars will be called in the superior court today.
